

# Hortense Isoré

**Seeking a dev apprenticeship or internship**
Apprenticeship: 18 months from Jan. 2027 | Internship: 8-10 weeks from April 2027

## About me

Second-year Computer Science student (BUT) after two years at Epitech and a 6-month full-stack internship. Rigorous and autonomous, I enjoy writing clean, well-tested code.

## Skills

- C/C++
- Python (Flask)
- PHP (Laravel)
- React JS
- Unix systems
- Java
- SQL
- Git
- Unit testing
- Selenium

## Languages

- French: native
- English: 745/990 (TOEIC-style)
- Spanish: school level

## Interests

- Competitive gaming
- Music

## Experience

Full-Stack Developer Internship at ARD-COM (August 2023 - January 2024)

- Built the company intranet in React.js: tools to track phone bills and Office 365 licenses to optimize client costs.
- Developed the API (JS) and designed the SQL database.
- Python scripts for data collection and billing notifications before due dates.

## Projects

| | |
|---|---|
| MyRPG | • RPG video game in C using CSFML. |
| 42sh | • Unix shell in C inspired by tcsh. |
| MyGKrellM | • System monitor (CPU, RAM...) in C++, with terminal (ncurses) and graphical (SFML) display. |
| Speranza | • Java application for managing doctors and patients, with a graphical interface. |
| Dante | • Maze generation and solving in C. |

## Education

CS Bachelor (2025 - 2028)

- 2nd year at IUT de Lens.

Epitech Lille (2022 - 2024)

- Grande École Programme (1st and 2nd years).
- Project-based learning: C, C++, Unix, teamwork.

Baccalaureate (2022)

- Specializations in Computer Science and Mathematics.
